GR Carbons — Business-code sequences

2026-10-06 · PostgreSQL sequences in schema core. Each generated key takes its number from nextval of the named sequence. Dedicated sequences belong to Activated Carbon shop-floor bags / customer PO. Shared sequences also serve other MES tenants on the same database.

RAW-AC-* and FG-AC-* share core.product_code_seq. Shop-floor bag sequences are created on first use. Next value is the number the next new key will receive.

Sequence name	Generated key	Used for	Dedicated / shared	Next value
core.customer_code_seq	CUST-AC-*	Customer master	Shared with other MES tenants	7
core.supplier_code_seq	SUP-AC-*	Supplier master	Shared with other MES tenants	1
core.product_code_seq	RAW-AC-* and FG-AC-*	Raw and finished product masters	Shared — RAW and FG use this one sequence	3
core.resource_code_seq	RES-*	Kilns, rotaries, machines	Shared with other MES tenants	1
core.equipment_code_seq	EQ-*	Equipment linked to a resource	Shared with other MES tenants	1
core.routing_code_seq	RT-AC-*	Process routing	Shared with other MES tenants	3
core.routing_operation_code_seq	OP-*	Routing operation code	Shared with other MES tenants	1
core.customer_order_code_seq	ORD-AC-*	Gate receipt / inward identity	Shared with other MES tenants	1
core.customer_order_line_code_seq	ORDL-AC-*	Inward / sales order line	Shared with other MES tenants	1
core.ac_customer_po_seq	CUST_PO_*	Customer sales PO	Dedicated	1
core.production_order_code_seq	PO-AC-*	Ontology production order (hidden on shop floor)	Shared with other MES tenants	1
core.lot_code_seq	LOT-AC-*	Ontology production lot (hidden on shop floor)	Shared with other MES tenants	1
core.feasibility_check_code_seq	FEAS*	Feasibility check (gate skipped in UI)	Shared with other MES tenants	22
core.execution_code_seq	EXEC-AC-*	Shop-floor operation execution	Shared with other MES tenants	1
core.schedule_code_seq	SCH*	Schedule header	Shared with other MES tenants	1
core.quality_check_code_seq	QC-AC-*	Quality check header	Shared with other MES tenants	1
core.ncr_code_seq	NCR*	Non-conformance	Shared with other MES tenants	1
core.dispatch_code_seq	DISP-AC-*	Dispatch document	Shared with other MES tenants	1
core.ac_bag_ri_seq	RI_BAG_*	RMS inward bags	Dedicated	1
core.ac_bag_ro_seq	RO_BAG_*	RMS outward bags	Dedicated	1
core.ac_kiln_out_ka_seq	KA_DDMMYY_*	Kiln A output bags	Dedicated	1
core.ac_kiln_out_kb_seq	KB_DDMMYY_*	Kiln B output bags	Dedicated	1
core.ac_deston_ds_seq	DS_DDMMYY_*	Destoning bags	Dedicated	1
core.ac_post_sc_seq	SC_DDMMYY_*	Screening bags	Dedicated	1

Sequence name	Generated key	Used for	Dedicated / shared	Next value
core.ac_post_dd_seq	DD_DDMMYY_*	De-dusting bags	Dedicated	1
core.ac_post_cr_seq	CR_DDMMYY_*	Crushing bags	Dedicated	1
core.ac_post_dm_seq	DM_DDMMYY_*	De-magnetisation bags	Dedicated	1
core.ac_post_bl_seq	BL_DDMMYY_*	Blending bags	Dedicated	1
core.ac_post_fg_seq	FG_DDMMYY_*	Finished-goods bags	Dedicated	1
